

I'm beginning with these three numbers simply so I can break them into a more easily viewable format.

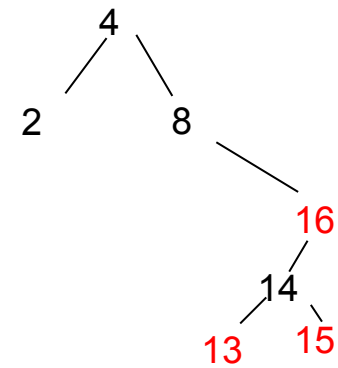

Still adding nodes, no problem yet.

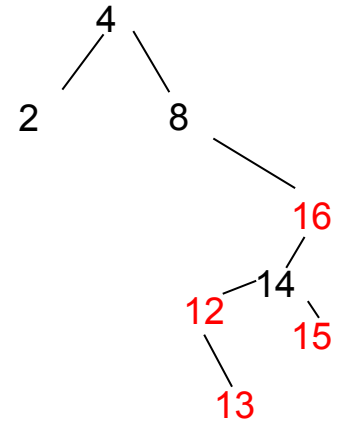

1 is finished and the RBT works so far.

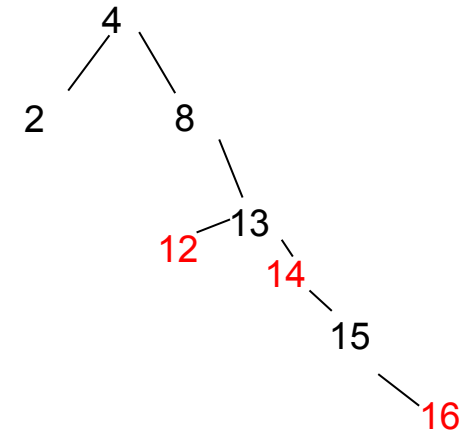

2 is almost finished but it doesn't work quite yet.

2 is finished and the RBT works so far.

3 is ongoing but these nodes are starting to get messy due to how many are here. By bringing 13 up to link with 8, we can fix this tree.

3 is finished and the RBT works so far.

4 is finished and we are left with the root.
